Subject: Airport Grant

Darel, Jerry

I received a call from Eric Johnson regarding our grant application. He stated that in his preliminary review of our application he noted that our Airport Information System has not been updated since 2009. The Airport Information System is required to be updated at the time of the application. With this and the limited amount of available funding he suspended his review and said that the City will not receive any grant funding for this year.

Please let me know if you have any questions.

Gary Harer
