OLD BUSINESS

- A: RUNWAY CRACK SEAL & REPAIR :
Have material ready to start crack sealing but city concerned with silica/sand that will be used in the crack sealing process. It all depends on if the old asphalt will be reused for the overlay or not. Crack sealing temporarily delayed.
- B: OPERATIONS & SECURITY MANUAL UPDATE :
The City of Moses Lake is still waiting for maps. Commission will contact Sophia for a more detailed update.
- C: REQUEST FOR QUALIFICATIONS FOR ENGINEERING SERVICES :
Have 3-5 engineering firm applicants that have applied for the overlay project.

- C: CLEAN UP OF AREA AROUND OPERATIONS BLDG : The E.A.A. is taking on this project and then having a fly in pancake breakfast on May 25th.

D: OTHER : Paul Jones presented a proposal for a new building. (see attachments). Size of the building is a concern. The building is too wide as it was presented for the lot that it is being proposed for. It encroaches into set backs. Width of bldg. will have to be reduced or current proposal will have to be moved to a different lot.

Marty Shaw has fuel tanks and a card reader system for sale. No price on fuel system yet. Commission to look into further.

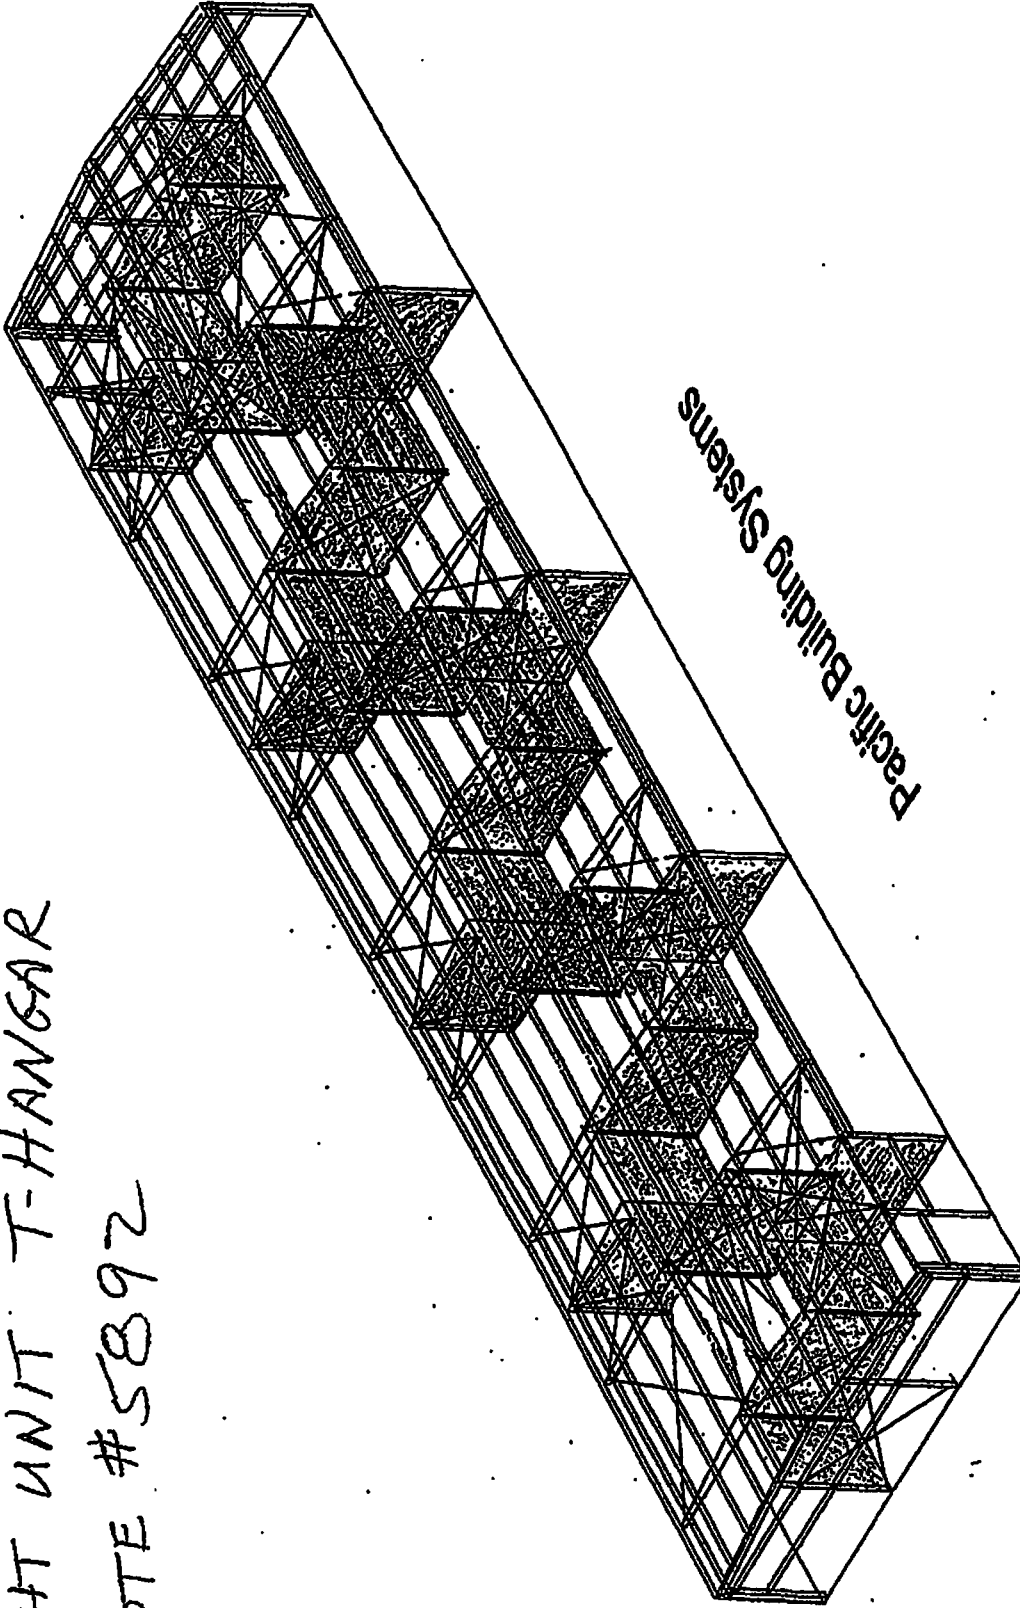

Commission approved to build a cabinet to house the security camera for the airport.
