---

**THE FOLLOWING ITEMS ARE REQUIRED FOR SUBMITTAL:**

Bid Documents

WSP Level U Certification

Site Plans Stamped in Accordance to WAC 212-80-083

Material Specifications (cut sheets)

Plans shall be submitted electronically

**WAC 51-54A-0105 Permits....105.7.20 Underground supply piping for automatic sprinkler system.** A construction permit is required for the installation of the portion of the underground water supply piping, public or private, supplying a water-based fire protection system. The permit shall apply to all underground piping and appurtenances downstream of the first control valve on the lateral piping or service line from the distribution main to one foot above finished floor of the facility with the fire protection system. Maintenance performed in accordance with this code is not considered to be a modification and does not require a permit.

**Exceptions:**

1. When the underground piping is installed by the aboveground piping contractor
2. Underground piping serves a fire protection system installed in accordance with NFPA 13D

All work shall comply with applicable codes and standards including NFPA 24 and the MLMC.

The completed installation shall pass a visual inspection and hydrostatic test witnessed by a representative of the fire department. Please call the permit technician with at least 24 hours' notice for inspections.

**Contractors Materials Test Certification** shall be provided to the Fire Marshal / Fire Inspector at the beginning of the test in Accordance to WAC 212-80-088

I hereby acknowledge that the information I have provided is correct and I agree to comply with all State and City laws and any ordinances regulating construction. I understand and agree the City of Moses Lake Fire Department has no obligation to explain every requirement and ordinance to me prior to approval of my project. I also acknowledge by signing this application I authorize any City of Moses Lake personnel access to the property at all reasonable times to ascertain relevant information, including the current condition of the property, and perform any and all inspections.

The issuance of a permit based on plans, specifications and other data shall not prevent the Fire Marshal from thereafter requiring the corrections of the errors in said plans, specifications, and other data, or preventing building operations when in violation of this code of any State or City laws, rules, or regulations. The granting of this permit or an approval does not presume to give authority to violate or cancel the provisions of any other Federal, State or City laws regulating construction, the performance of construction and/or operation of the project. Every permit issued under the provision of the MLMC shall expire by limitation and become null and void if the work authorized is not commenced for a period 180 days. I hereby certify that as a contractor I am currently registered and properly licensed as defined in RCW 18.27
